Sir:

Responsive to office letter dated July 22, 2005. Please amend as follows:

Cancel claims 1 through 4, inclusive, substituting newly inserted claim 5.

REMARKS

Drawing Objection

Examiner has objected to the drawings under 37 C.F.R. 1.83, stating that the drawings must show every feature of the invention specified in the claims.

Therefore, the groove in the frame element defined in claim 4 must be shown or the feature canceled from the claims. Examiner has stated that the element labeled numeral "24" in Figure 2, does not appear to be a groove, and that no matter should be entered.

Applicant has reviewed Examiner's comments. Reference character 24 designates one surface of the groove which is formed in the frame. The groove itself has no physical structure. Applicant cannot respond to this objection until Examiner clarifies exactly what it is that he does not understand. It is noted that the groove in the frame element is old construction, and relatively understood by those skilled in the art.
